Invitation

Dear friends,

We have great pleasure in inviting you to the HERNIACON 2009, 2nd Mid-term CME Conference and Workshop. The Conference is being jointly organized by Indian Hernia Society and Coimbatore Medical College.

It's a two day Scientific programme with Live Surgical Workshop, Interesting Lectures, Debates and Panel discussions. Learning is an endless process. It is never complete without proper exchange of views. Eminent Surgeons of National and International repute have been invited to demonstrate the surgical Skills and discuss their experiences.

In this two days Workshop, all varieties of Surgery for Hernia both open and Laparoscopy will be demonstrated.

Please mark the dates of July 17th and 18th 2009 to attend this Programme. The near by hill station, OOTY (The queen of Hill Stations) will be an another attraction of your week end. We hope you will enjoy the Surgical feast with our hospitality. Looking forward to greet you at Coimbatore.

With warm regards,

Prof A. Ramamurthy
Organising Chairman
Professor of Surgery
Department of Surgery
Coimbatore Medical College & Hospital
Coimbatore

HERNIACON 2009

Prof M.C. Misra
Conference President

Message from the President's desk

The Department of Surgery, Coimbatore Medical College, Coimbatore is organizing MID TERM CME CONFERENCE and Live Workshop focused on laparoscopic & open repair of inguinal and ventral/incisional hernias in association with Indian Hernia Society on 17th & 18th July 2009 (HERNIACON 2009).

Groin hernia repair is one of the commonest general surgical procedures performed by general surgeons. Over 700,000 groin hernia repair are performed each year in USA alone. The exact number in India is not known but according to conservative estimate more than 3,00,000 repairs are done each year in India. Open hernia repair continues to dominate and associated with significant morbidity if not performed by properly trained surgeons. Open hernia repair is the first elective operation performed by surgical trainees. To focus on surgical treatment of hernia; Shouldice Technique, Bloodgood, Lichtenstein, PHS and laparoscopic (TEP & TAPP) repairs will be demonstrated.

Ventral/incisional hernia repair is the next common hernia performed by general surgeon. In USA alone over 90,000 incisional hernia repair done each year. In India there are no definite data but more than 1,50,000 repairs might be performed according to conservative estimates. Sutured repair is associated with high recurrence rates (As high as 60%). Recurrence rates have significantly come down with the prosthetic repair. Lately laparoscopic repair of ventral/incisional hernia repair has become the standard of care due to overwhelming advantages in terms of reduced postoperative complications and recurrence. HERNIACON 2009 will focus on various aspects of laparoscopic and conventional repair of ventral/incisional hernia.

I welcome you all for active participation during the CME, Conference and live workshop on various techniques for inguinal and ventral/incisional hernia repair. There will be free papers and panel discussion covering aspects of hernia repair. I congratulate the dynamic team lead by Prof. A. Ramamurthy for the absorbing scientific program and live workshop and wonderful hospitality.

With all the best wishes and greetings, I welcome you all to the beautiful city of Coimbatore

Prof. M.C. Misra
President
Indian Hernia Society

HERNIACON 2009

Programme

- ✔ July 16 : Pre conference Basic Laparoscopy Course for Post Graduates
- ✔ July 17 : Workshop cum Conference
- ✔ July 18 : Workshop cum conference

Highlights

- ✔ Guest Lecture by International Faculty
- ✔ IHS Presidential lecture on "N.O.T.E.S AND HERNIA"
- ✔ Panel discussion on "Technical Aspects of Laparoscopic Inguinal Hernia"
- ✔ Symposium on GERD and Hiatus Hernia
- ✔ Free Papers and Quiz

Workshop (on Both Days)

- ✔ Hernia system repair
- ✔ Shouldice repair
- ✔ TEP
- ✔ TAPP
- ✔ Laproscopic IPOM Repair
- ✔ Laproscopic fundoplication for Hiatus Hernia
- ✔ Rare Hernia
